## INTRODUCTION

### ABOUT US

GTG Manufacturing Sdn. Bhd. was established in November 15th, 2011 with the aim to supply Superior Quality Adhesive Tapes to our esteemed customers at competitive pricing.

Among the different types of Self-Adhesive Tapes that we are supplying to our customers in the form of Jumbo Rolls, Log Rolls or Finished Rolls includes the Single Sided Tapes such OPP Packing Tape, Masking Tape, PVC Black Protection Tape, PVC Floor Marking Tape, PVC Insulation Tape, PE Protective Film, Cloth Duct Tape, Aluminium Foil Tape, Filament Tape, Teflon Tape, Kapton Tape, Mercury Tape, Stationery Tape, Cellulose Tape and others.

We also supply Double Sided Tapes (i.e Tissue, EVA, PE, PP and Acrylic Foam Tape) as well as Protection Film for various surfaces (i.e Electronic Devices, Injection Moulds, Automotive, Construction Glass, Acrylic Boards, Carpet, Stainless Steel, Aluminium Profile, Ceramic Tiles, PVC & PET Plastic Sheets).

At GTG, every product created has been tailored to meet specific customer's requirements in myriad of industries ranging from Packaging, Automotive, Electrical, Advertising, Printing, Logistic, Aluminium & Glass, Fashion and others.

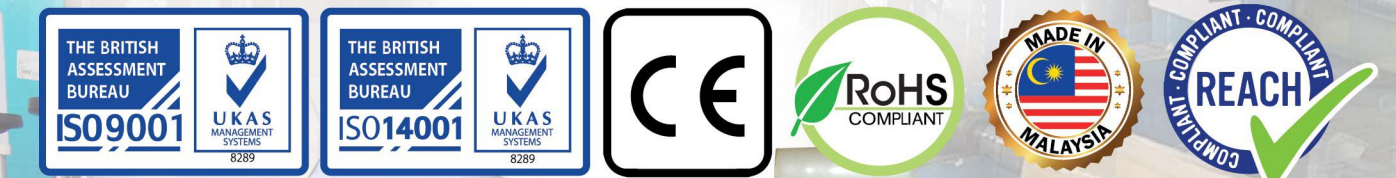

As a show of our sincere gratitude to our huge base of customers, we dedicate our ongoing works and efforts in constantly looking for ways to serve astute clients like yourself better than before.

### OUR MISSION

We aim to provide our customers with the Superior Quality Sensitive Adhesive Tapes at Competitive Pricing.

### OUR VISION

To be our customers best source for Adhesive Tapes and Packaging Material

At GTG, we ensure total satisfaction or our distinguished clients with these undertakings :

- ★ Excellent quality, competitive pricing, prompt deliveries.
- ★ Our products are iso certified & environmental friendly.
- ★ Attractive packaging, various colours thickness, width & length available upon request.
- ★ Ease of use, able to conform to various surfaces, strong adhesion, high temperature resistant, flame-retardant, doesn't leave glue residue upon removal, odourless, high tensile & elongation strength, longer shelf life (1 year from manufacturing date), moisture resistant & better ageing resistant as compared to our competitors.
- ★ It is uniform in thickness, giving precise bonding.
- ★ It is instantaneous, which means no waiting for drying or chemical reaction.
- ★ The finished bond is stress-free. All other adhesives create stress in the joint when changing state which can potentially weaken the bond.
- ★ It comes in many different varieties, some of which are tailor-made to very specific applications.
- ★ Our Adhesive Tapes can be applied as a die-cut to the exact area needed, further minimizing waste.
- ★ Our Adhesive Tapes is extremely inexpensive compared to sealants, and provides an incredible number of uses per roll.
- ★ No special tools are needed, other than something to cut the tape (scissors or a tape dispenser).
- ★ Many tapes can even be torn by hand. Compared with fasteners such as screws, this is a much easier installation option.
- ★ Compared with trying to secure something with fasteners such as screws (which can cause various issues depending on the surface to which you need to attach) adhering something with tape can take seconds.
- ★ Other than ensuring that the surface is clean and dry, there is no preparation necessary. It isn't messy to use - there are no brushes or application tools and there is no surplus of adhesive or waste of materials.
- ★ Bonds dissimilar materials without incompatibility concerns. Provides vibration dampening and noise reduction. Reduces assembly time. Eliminates the need for surface refinishing. Eliminates visible mechanical fasteners for cosmetic superiority.
- ★ Provides uniform thickness and gap filling properties.
